NEXT PRACTICE
INSTITUTE
of Mobius Executive Leadership

Annual Summer Immersion

June 4th evening to June 9th afternoon, 2017

Boston, Massachusetts

NEXT PRACTICE INSTITUTE

The Next Practice Institute (NPI) of Mobius Executive Leadership sponsors transformational training programs for our practitioners, partners, and clients. These programs operate at the nexus of “best practice” in such areas as organizational development, culture change, and adaptive leadership, and “next practice” in neuroscience, somatics, energy work, music, yoga, and other expressive/ devotional arts.

Together we are creating a global community of practice devoted to the craft of transforming people into stronger leaders and building a better world for everyone.

Each summer we conduct a week-long professional development immersion outside of Boston. The Summer Gathering brings together practitioners (including coaches, mediators, interventionists, and facilitators), business leaders, human resources and organizational development professionals, strategy and search consultants.

We come together for renewal, learning, inspiration, and practice.

The Summer Gathering is supplemented throughout the year with workshops and an active practitioner portal to which we all contribute.

BOOKS BY NEXT PRACTICE INSTITUTE FACULTY

Participants in the 2017 Summer Gathering can select from one of four tracks for the week.

SEVEN ELEMENTS: THE FOUNDATIONS OF
CONVERSATIONAL LEADERSHIP

*A special group session with David Whyte
Wednesday, June 7, 2017*

Human beings have never had the luxury of choosing between an untouched, interior foundational self and the necessities and often overwhelming responsibilities of the outer world.

As leaders and individuals we are conversational creatures who shape our identities at the edge, between an untrammelled interior self and the difficulties of our strategic, practical world, between how we need to be and what we need to do, and especially between the actual ground beneath our feet and the horizon to which we have dedicated our individual or organizational hopes.

In this day-long workshop, poet, author and international speaker David Whyte will lead participants through crucial moments in the seven elemental steps he considers all human beings must go through to make any conversation, personal or organizational, more real.

He and participants will look at the conversational nature of reality, that permeates all our hours, working or not. We will call upon the eyes and ears of poetry, David's decades-long experience in organizations and participants' own self reflection. We will look at how these seven courageous steps apply to the necessities of power, responsibility, and the robust vulnerability needed in creating what David has called 'a more conversational and invitational identity'.

Vocation is a moveable frontier between what we want for ourselves
and what the world demands of us. — DAVID WHYTE

MYSTICAL PRINCIPLES OF TRANSFORMATION

A special group session with Thomas Huebl

Wednesday, June 7, 2017

An opportunity to study the mystical principles of transformation with non-dual teacher Thomas Huebl, who joins us in person for a day-long immersion.

Thomas is blazing a path of 21st-century spiritual practice and helping thousands of students around the world to really live their awakening amid today's busy world.

He will lead a group for a day of study, practice, and awakening. Thomas will share his unique approach for living as a mystic in the marketplace, sharing his understanding of the mystical principles of embodiment, healing, manifestation, and service. We are truly delighted to offer this opportunity to practice with an advanced teacher who understands the challenges of modern life and grounds his work in psychology, philosophy, and meta-physical awareness.

Thomas Huebl is a rare guide: a masterful mystic able to navigate advanced realms of spiritual mastery while presenting himself in a delightfully warm, transparent, brotherly way. He is the best of 21st-century enlightenment: deep thinking, clear-seeing, and radical in his stance.

The session will focus on healing and the art of transformational facilitation.

What is the spirit of the age we are in,
and what is the radical awakened state?

– THOMAS HUEBL
