

STEP 3 Mastering Sustainable Abundance

Three Two-Day Retreats in 2019
March 7-8 | June 6-7 | September 12-13
Concord, MA

Enough already!
It is time for a world that works for all.
Join our certification training.

Be part of a growing movement and our latest thought leadership on creating a sustainable and sustaining, prosperous and abundant world.

Mastering Sustainable Abundance

If you:

Are committed to a world where everyone matters and know we must re-invent our organizations, communities and nations;

Are no longer interested in perpetuating the myths that more is better, there is something wrong and that you are not enough;

Are willing to dive deep into systems and unpack our collective narrative, and address our communal wounds;

Want to support others in this journey toward world-wide sustainable abundance by becoming a SUSTABU coach, sufficiency call mentor and /or community call leader.

Come Join Us

We will ensure that you:

- Engage and deepen inside our latest thinking and travel with us on a learning journey from exquisite sufficiency to sustainable abundance;
- Gain facility to move through the 7 steps of distinguishing context, declaring the context for your life, letting go and being complete, being able to powerfully create and innovate in all areas of your life, live inside practice as a way of life, participate in your community and have the capacity to re-create continuously;
- Are capable of supporting others within each element of the steps:
 - » You can distinguish context in a way that is clear and understandable to others;
 - » You can support people to get clear on their process of letting go and support while they engage;
 - » You can support creation and others are creating powerfully in your presence and through your stand for them.
- Gain an understanding the systemic context of capitalism, consumerism, addiction and oppression;
- You come away with a regular practice of centering, mindfulness, letting go and being complete;
- Integrate the SUSTABU work into your life and work.

And we invite you to:

- Let go of personal wounds from living in the context of capitalism, consumerism, addiction and oppression in a safe community;
- Commit to a centering and mindfulness practice and be able to offer simple beginning instruction to your students;
- Assuming you achieve certification, have the opportunity to be a SUSTABU coach, sufficiency call mentor and/or community call leader at Seven Stones.

Sustainable Abundance
is our birthright. Now is
our time to reclaim it.
